7 DEADLY SINS

twitter: @pandastichuman

India, **a land of engineers**

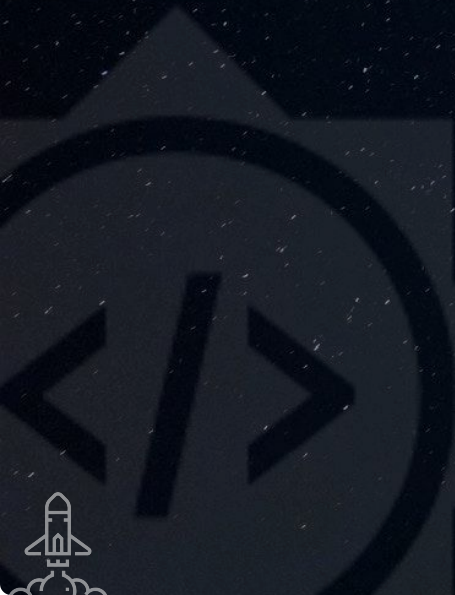

1.5 million

Total number of engineers
graduating every year

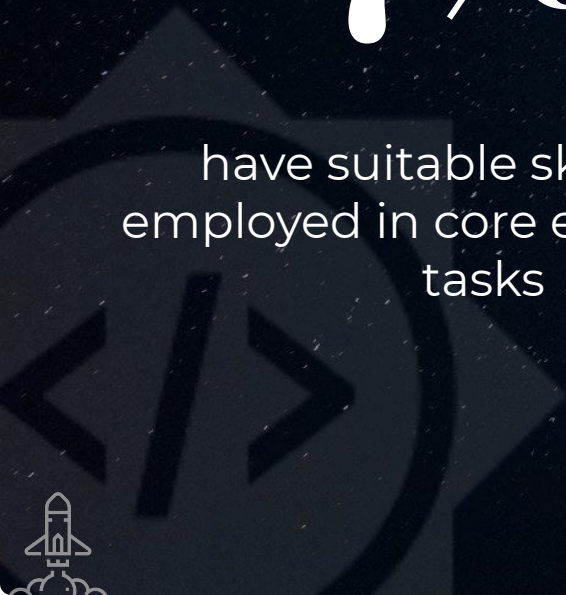

7%

have suitable skills to be
employed in core engineering
tasks

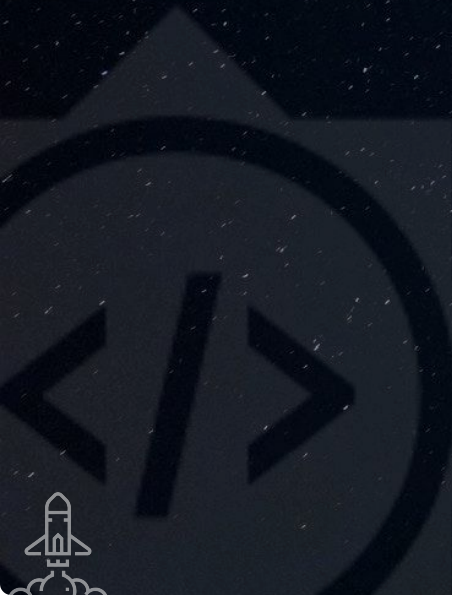

3%

have suitable skills to be
employed in **software or product
market**

why?

Severe lack of practical skills

What is common between
programming & swimming?

Coaches / mentors

v/s

Teachers

Importance of in-field experience

Severe lack of awareness

Listen to Sing
Watch to Paint
Read to Write..

Read code to write code?

78%

of companies run
on open source.

66%

use open source as
default method.

3%

of companies
don't use Open
source at all.

*It's an open
source world*

Practical Skills | Great Mentors | Exposure

Google *summer of code.*

How it works?

1

*Choose
Community*

from a list of 220
awesome
communities.

2

*Propose a
Project*

from list of project
Ideas or propose
your own.

3

*Spend
Summer
Coding*

being guided by
mentors & serving
huge number of
actual users.

PRIZES !!!!

Proposals Open somewhere in
March

Thou must be aware of

SEVEN DEADLY SINS!!!

LUST

Proposing too many projects in
too many communities shall rip
thou of thy focus and chances.

GLUTTONY

Proposing too many features in
thy proposal shall make it look
unrealistic and ill-planned.

GREED

Doing it just for money rather
than participating in
community shall not give thou
the rewards thou desireth.

WRATH

Getting impatient with other contestants and/or mentors.

ENVY

If you don't share, you shall not
be spared!

PRIDE

Don't be shy when asking
mentors for help, take their
input while preparing your
proposal.

SLOTH

Don't just do GSoC and go
away, stay in community. Keep
contributing.
